

THE
DAWG HOUSE EATERY

DirectPOS (formerly Spokane Cash Register) was recommended by the Washington Restaurant Association. The Micros e7 is The Dawg House Eatery's first POS system. The e7 report features are very useful in helping the business make sensible decisions. The DirectPOS staff, namely David Caler and Annemarie Fransk, have been very helpful and accommodating. I would recommend DirectPOS to other restaurants, our experience has been very positive.
