

“As a Specialty Coffee Roaster & Retailer, I have worked with DirectPOS (formerly Spokane Cash Register) for several years to install state of the art POS systems in our Thomas Hammer Coffee stores with both counter & drive through window service. Annemarie & David thoughtfully explained & demonstrated the features & benefits of the available system options that fit our budget & custom tailored a program to meet our needs. They truly made the process of investing in a new POS system easy & relatively painless. The on-site staff training was timely, thorough & end-user friendly. We have come to rely on the ability of DirectPOS to readily adapt to our changing retail & reporting needs. I am continually impressed by the superior customer service and flexibility offered by each and every one of their dedicated and friendly employees.”

Janet Williams
Director of Retail
Thomas Hammer Coffee Roasters
