To Whom It May Concern:

Dynamite Marketing has been in business with Abacus Credit Card Solutions for several years and has been pleasantly surprised by the tremendous service and personal care we have received.

I am solicited often from merchant service companies claiming to have the ability to lower our rates. However, we have found time and again that once we dig deeper into their contracts they are not money-savers. Frankly, if another company could cut costs a bit we are not willing to risk giving up the great, *local* service for a few dollars savings.

We recommend Abacus Credit Card Solutions on a regular basis to businesses like ours who want good service from a local company who cares.

Sincerely,

Callie Zamzow Novak
Vice President
