To RVP Business Systems Staff

I wanted to thank you and let you know how much we appreciate the continued support we've received and continue to receive for the POS system your company installed in our bar.

The installation was smooth and making the transition from a regular cash register to a fully functioning Point of Sale system with inventory control capability was easier than anticipated. Mainly because the RVP Service Technician, Mike Spitzer who installed the system has been a pleasure to work with, is very knowledgeable and is always available to answer questions or able to help us solve any problems that come up with the system.

Andy, from the RVP Tech Support staff has also been very helpful. He is also very knowledgeable and is always very patient and helpful to get any issues with our POS System resolved.

I would highly recommend that any small business owner who is thinking about getting a Point of Sale system seriously consider acquiring a system through RVP Business Systems.

Thank you very much for installing a quality POS system and for providing excellent tech support!

Sincerely,

A handwritten signature in blue ink that reads "Jerry Belcourt". The signature is fluid and cursive, with a long horizontal stroke at the end.

Jerry Belcourt
